

Computer & Informatics Engineering Department

Technological Educational Institute
of Western Greece

Call for Participation

Computer and Informatics Engineering Department of Technological Educational Institute of Western Greece launches the Master of Science program **“Technologies and Infrastructures for Broadband Systems and Applications”**. The M.Sc. Program will initiate in **October 2014**.

The M.Sc. Program focuses on providing high level technical background into the technologies for the design, implementation, development, integration and control of next generation broadband systems and applications. More particularly focuses on:

- Next Generation Internet Technologies
- Broadband Communication Networks
- Broadband Applications and Services
- Hardware/Software Technologies for communication systems and networks

The M.Sc. Program accepts Graduates of Technical Universities, of Polytechnics, of Science of Universities, domestic or foreign corresponding departments, as well as graduates of TEI, whose field of studies is relevant to the subject of Computer Science, Information Technology, Electronics and Telecommunications.

Applications submission deadline is defined as: **September 15th, 2014**. Applications are submitted electronically at the M.Sc. program's website
